

LaRC SAFETY HIGHLIGHTS

July 9, 2001

FY 2001 - Civil Servants

() = Number of new occurrences

OSHA Recordable Cases = Fatalities, Lost Time and Incidents
Incidents = Non first aid medical cases which have less than 8 hours lost time

Injury/Mishap Information

- The Center has been **147** days **without** a Civil Servant **Lost Time Injury** (Record 251 days).
- The following first aid cases involving civil servants were reported:
 - A SEC employee, while removing a piece of tape from a dispenser, struck a thumbnail against the dispenser traumatizing the thumb.
 - A SMC employee slipped while descending a stairway, sustaining a right ankle sprain.

Close-Call – LaRC employees are reminded to stay clear of emergency vehicles entering/exiting the fire station (B1248). These vehicles are normally backed-in to enhance response time and they need adequate clearance to maneuver.

Access to Roof Areas – It is the responsibility of the Facility Coordinator (FC) to control access to potentially hazardous roof areas by performing the following procedures:

- Posting appropriate warning signs.
- Controlling internal access to roofs by securing with a lock.
- Serving as point of contact for those needing roof access.

Upcoming Training

- Crane Training, Tuesday, July 17, 2001, 8:00 - 10:00 a.m., Building 1162, Room 122.
- Aircraft Accident Investigation, July 10 - 12, 2001. Contact Grant Watson at 43069 for time and location.

Weekly Video Schedule - July 9 - 13, 2001 - Watch Your Step; Accidents Don't Need to Happen; Accidents Cause and Prevention; Bar-B-Q (Summer Safety); and Hazard Recognition.
